PRODUCT SUMMARY
Don’t let bug bites ruin your family’s outdoor fun this summer! Young Living’s Insect Repellent is clinically proven to repel mosquitoes and other tiny invaders using only 100 percent naturally derived, plant-based ingredients.

Pure sesame oil and a carefully selected blend of essential oils traditionally used for their bug-repellent properties come together to make up all 99 percent of the active ingredients in this formula. The other 1 percent? Vitamin E. That means you can use it on your little ones and not worry about the harsh chemicals used in many traditional repellents. You’ll also love the pleasant, citrusy aroma and smooth, non-greasy, non-sticky application.

So whether you’re spending time in the backyard or the backwoods, you can feel great knowing you have a pure, plant-based way to protect yourself and your loved ones.

Due to state regulations, this product is not available to purchase in the state of California.

KEY INGREDIENTS
Citronella essential oil, Lemongrass essential oil, Rosemary essential oil, Geranium essential oil, Spearmint essential oil, Thyme essential oil, and Clove essential oil

EXPERIENCE
Young Living’s Insect Repellent has a naturally derived, hypoallergenic formula that leaves skin feeling smooth and moisturized instead of greasy or sticky.

PRODUCT BACKGROUND
Most insect repellents on the market use DEET or harsh chemicals to keep bugs away. That’s why Young Living created a 100 percent naturally derived, essential oil-infused alternative. In addition to not containing DEET, this Insect Repellent is formulated without parabens, fillers, phthalates, petrochemicals, animal-derived ingredients, synthetic preservatives, synthetic fragrances, or synthetic colorants. It’s even gentle enough to use on kids!
D I R E C T I O N S
Dispense into hand and apply evenly over exposed skin. Reapply as needed. Avoid contact with clothing, as product can stain fabric.

C A U T I O N S

F R E Q U E N T L Y   A S K E D   Q U E S T I O N S
Q. How often should this product be applied to the skin?
A. Young Living’s Insect Repellent can be applied as often as needed. If you are sweating, swimming, or wiping your skin, apply it more often.

Q. Why were these essential oils chosen for the Insect Repellent?
A. The essential oils in our Insect Repellent formula (Citronella, Lemongrass, Rosemary, Geranium, Spearmint, Thyme, and Clove) were selected because they have traditionally been recommended for their bug-repellent properties.

Q. Can children use Young Living’s Insect Repellent?
A. Yes, children can benefit from the use of this product under adult supervision and administration. It is also formulated to be hypoallergenic and appropriate for those with sensitive skin.

Q. Why is vitamin E included in this product?
A. Vitamin E is included in this 100 percent naturally derived formula to help preserve the product and prevent...
