EXPERIENCE

With its bright, citrusy aroma, Orange essential oil is a great choice for diffusing in the morning and throughout the day. Not only does its scent help clear the mind, but Orange essential oil may also help eliminate unwanted odors. When mixed with a light moisturizer and applied to the skin, Orange essential oil may help reduce the appearance of blemishes. Orange, like other citrus oils, can cause photosensitivity, so avoid applying it to exposed skin before spending time in the sun.

PRODUCT BACKGROUND

Orange essential oil is cold-pressed from the rinds of fresh, juicy oranges. Orange trees are native to Asia, but you can now find them all over the world, including in France, Germany, and the United States. Orange essential oil contains the naturally occurring constituents limonene and alpha-pinene and is a key ingredient in blends such as Citrus Fresh™, Abundance™, Christmas Spirit™, and Peace & Calming®.
