

## Product Summary

Lavender is a popular essential oil long loved for its calming, soothing fragrance. When diffused, Lavender adds a clean and fresh scent to any room. It is also a relaxing addition to body care products and baths.

## Why We Love It

Lavender essential oil's smell is very similar to that of the fresh herb—clean, fresh, relaxing, and floral—which is why Lavender has always been such a favorite of gardeners and perfume makers. That relaxing smell makes Lavender a bubble bath's best friend! Just add a few drops to hot bath water at the end of a long day to unwind and let it all go. It's also great to diffuse while buried in a great book and drinking a cup of herbal tea.
