

## Product Summary

Cacao has been sought throughout history for its rich flavor and high amounts of beneficial flavonoids and antioxidants. Historically, it was so precious that it was saved for royalty and the elite. Today, cacao is considered one of the world's premier super foods.

In his quest to bring healthful, natural products to the world, D. Gary Young recognized the power of cacao and set out to create a delicious delicacy packed with cacao's nutritional goodness. The result is the new Ecuadorian Dark Chocolessence: hand-crafted, 70 percent Ecuadorian chocolate expertly blended with premium raw cacao nibs, pure essential oils, quinoa crisps, and banana puree. These proprietary cacao nibs are dehydrated using a low-heat process to preserve more of the cacao's rich benefits. With natural peppermint, vanilla, and ishpingo essential oils, quinoa crisps, and no added cane sugar, Ecuadorian Dark Chocolessence is in a class by itself.

## Primary Benefits

- Supplies the body with flavonoids (2,070 mg per serving\*), polyphenols, and amino acids
- Delivers 17,975 S-ORAC value per serving\*
- Delicious snack alternative to fill chocolate cravings

## Who Should Use This Product?

- Individuals interested in a unique confection with flavonoids, polyphenols, and potassium
- Individuals interested in the many health benefits of chocolate
- Individuals who love dark chocolate
- Individuals looking for a delicious snack alternative with only 140 calories per serving

## Suggested Use

- Enjoy 1 25-g bar as needed
