

Product Summary

Life 5 is a proprietary, high-potency combination of five probiotic bacteria strains (*L. rhamnosus*, *L. acidophilus*, *B. lactis*, *S. thermophilus*, and *B. bifidum*) that support intestinal health and healthy immune function. Encapsulated in advanced, delayed-release capsules, Life 5's 10 billion beneficial cultures per serving bypass the stomach, which improves overall product efficacy.

Science continues to discover the important role probiotics play with regards to core health and vitality. The bowel is where the all-important transfer of nutrients to the bloodstream takes place. It is also the command center of the immune system and eliminator of waste products. If the bowel is not working properly, optimal health is impossible, and the body is vulnerable to myriad conditions. Daily use of Life 5 provides the desired probiotics to support optimal bowel health and functionality.

Primary Benefits

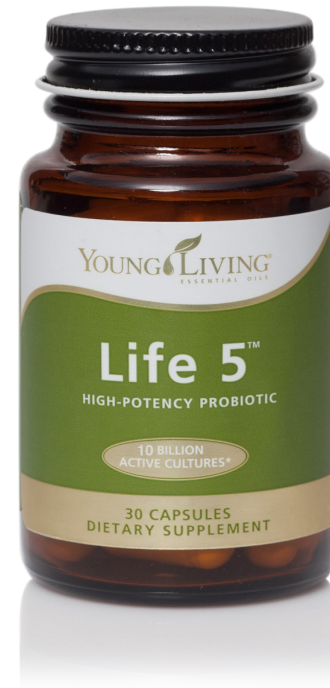

- Supports a healthy digestive system*
- Supports the body's natural immune defenses*
- Supports the natural balance of good bacteria in the digestive track*

Who Should Use This Product?

- Individuals interested in supporting proper digestive flora development
