

## Product Summary

Lime is believed to be native of eastern Malaysia and was introduced to the West Indies by Columbus during his second voyage. Lime has historically been used as a digestive aid, along with having many other traditional uses. Today lime is best known throughout the world as a way to help support a healthy immune and digestive system.

Lime essential oil has an invigorating and stimulating effect and also acts as an insecticide. When taken internally, lime may provide antioxidant support and aid in weight management. When applied to the skin, lime oil may also provide antioxidant support and may promote healthy skin.\*
