

PRODUCT SUMMARY

Native to Kealakekua, Hawaii, Royal Hawaiian Sandalwood™ essential oil is extracted through the steam distillation of wood pieces of mature sandalwood trees found primarily in dry forest areas on lava substrates.

Traditionally used in meditation, the sweet, woody aroma of Royal Hawaiian Sandalwood fosters a space for clarity and relaxation when inhaled directly. When added to your daily moisturizer, this nurturing oil can reduce the appearance of blemishes and promote youthful-looking skin. If you're in need of a moment of peace before a hectic day or a way to decompress after a tiring evening, Royal Hawaiian Sandalwood is one oil you won't want to go without.

KEY INGREDIENTS

Royal Hawaiian Sandalwood

EXPERIENCE

Royal Hawaiian Sandalwood has a sweet, woody aroma that can help create a sense of clarity and calm when experienced aromatically and that promotes the appearance of smooth skin when applied topically.

PRODUCT BACKGROUND

From the Kona Sandalwood Reforestation Project located on the beautiful island of Hawaii, Young Living's Royal Hawaiian Sandalwood is harvested only from dead or dying sandalwood trees in order to preserve ecological balance and to maintain respect for the sacred land. Harvesting occurs when a tree reaches the end of its natural life which, fortunately, also happens to be when the highest percentage of oil is found. As an oil that promotes the appearance of smooth skin, Royal Hawaiian Sandalwood is found in popular Young Living beauty products such as our Boswellia Wrinkle Cream™ and Sandalwood Moisture Cream™.
