WHY WE *love* IT

Parents make hundreds of decisions every day about their family's well-being, and we want to make it as easy as possible for them to choose the right products for their babies. Traditional diaper creams contain ingredients you don't want to put on your baby's delicate skin, especially irritated and sensitive areas.

We developed Seedlings Diaper Rash Cream to provide

A NATURAL DIAPER RASH TREATMENT

for the littlest, most vulnerable members of our families.

Seedlings Diaper Rash Cream offers a 100 percent naturally derived formula approved for the treatment and prevention of diaper rash. Infused with 100 percent pure essential oils, including Lavender, this cream is formulated to soothe and calm. Dermatologist tested and hypoallergenic, this cream is formulated without lanolin, parabens, phthalates, petrochemicals, synthetic preservatives, synthetic fragrances, or synthetic colorants.
