## FREQUENTLY ASKED QUESTIONS

**Q. Will Shutran Beard Oil make my beard greasy or weighed down?**

A. No, as long as you don't apply too much. Shutran Beard Oil is designed to absorb easily into hair and give it a soft, natural-looking shine. Start with less than you think and add more as needed. A dime-sized amount is plenty for most facial hair; however, individuals with drier skin and hair types or longer beards may need to use more.

A. A little goes a long way! Shutran Beard Oil can be used every day, and a bottle will typically last for a few months, depending on how much you use.

**Q. When should I apply Shutran Beard Oil to my beard?**

A. Shutran Beard Oil can be applied anytime, but it works best on freshly cleaned and dried (or slightly damp) facial hair. Use your hands to work the oil into your hair and the skin underneath.
