

PRODUCT SUMMARY

We all experience periods of emotional stress—our furry family members included. Help alleviate pets' nervousness and support feelings of comfort with Young Living's T-Away™. Formulated specifically for animals, this essential oil blend can be applied topically or diffused to promote a balanced environment for your pets during times of tension.

KEY INGREDIENTS

Tangerine, Lavender, German Chamomile, Royal Hawaiian Sandalwood™, and Frankincense essential oils

EXPERIENCE

T-Away is formulated with a soothing scent for your animal to support a sense of calm and joy.

PRODUCT BACKGROUND

Young Living has always been dedicated to the well-being of your home and family, including your fur babies. T-Away was developed to support pets and livestock that may have occasional stress or anxiety when left alone and promote feelings of balance and grounding. Using Young Living Harmony™, Trauma Life™, and Peace & Calming® blends, T-Away has a strong base of essential oils with scents known for their uplifting and soothing properties. T-Away is formulated with your pet's health in mind.

Topical

Aromatic

BENEFITS & FEATURES

- Promotes a calming and peaceful environment for your pets' overall well-being
- Helps promote feelings of balance and grounding
- Supports pets during times of emotional stress
- Helps elevate disposition with its pleasing aroma
- Supports joyful feelings in your pets

SUGGESTED USE

- Apply 1 drop behind each ear to calm your pet.
- Use an AromaGlide™ Roller Fitment to apply to the bottoms of paws or on the flanks.
- Use to promote a sense of comfort when leaving your pet home alone for short periods of time.

DIRECTIONS

Carefully apply according to the size and species of the animal. Additional dilution is recommended for smaller species.

CAUTIONS

Take extra care when using any essential oils, especially those with citric ingredients, around cats. Specifically formulated for veterinary use. Keep out of reach of children. Store in a cool, dark place.

†100% pure, therapeutic-grade essential oil

*100% pure absolute

FREQUENTLY ASKED QUESTIONS

Q. The color of my T-Away has changed from blue to green. Is it still safe to use?

A. T-away contains both German Chamomile and Blue Tansy. When these oils are freshly distilled, they are a deep blue color. Over time, they change from a deep blue to a dark green. This is considered a normal, natural occurrence. Rest assured, the oil is still safe and efficacious.

Q. How much does T-Away need to be diluted before application?

A. This product is prediluted specifically for animals. However, additional dilution may be required depending on the size and sensitivity of the animal. We do not have

specific dilution ratios available to provide, as this product is formulated for all animals, and each individual animal will have different levels of sensitivity. Start by diluting heavily and use in moderation. We also suggest testing the blend on a small area before wide-spread application. Every animal is different, so carefully observe how each animal responds to the oils.

Q. How long can T-Away be diffused?

A. T-Away can be diffused up to 1 hour 3 times daily.
