

# ELITE EXPRESS

## HOW IT WORKS

There are six tracks in which you can participate, with the first track beginning the month you first reach the rank of Senior Star. In order to qualify, you must maintain your prequalifying rank during the entire qualification period for each track and achieve the next qualification rank by the last day of the qualification period. The qualification period for each reward begins on the first of the month following your first-time achievement of the qualifying rank.
